## Project Update

Welcome to Dear Neighbour, the newsletter that keeps everyone up to date with progress on the Abbey View Primary Academy project.

The overall proposal for Buckinghamshire County Council is to deliver a two form of entry (2FE) primary school with nursery, to be built in two phases.

The first phase, due to start on site in August 2018, will see Morgan Sindall's project team deliver a new 1FE school and nursery, future-proofed to expand to 2FE at a later date. The new school will meet 'Secure by Design' standards as appropriate.

The development is part of a Section 106 Planning Agreement with Taylor Wimpey and Wycombe District Council. The school is within the new housing development, Pine Trees, currently under construction at the former RAF/USAF Daws Hill site.

In order to accommodate future expansion of the local residential developments, the new school is to be constructed in two phases:-

**Phase 1:** 1FE pre-school/ teaching provision with supporting spaces (Hall / Studio / Kitchen / Ancillary + Offices) at 2FE required sizes. Phase 1 of the school is due to open in September 2019.

**Phase 2:** Expansion of school provision to enable full 2FE accommodation. This will be a phased intake generated by the adjacent housing.

All spaces will have potential to accommodate the support technology needed by all learners and staff. The design will also meet the current government guidance for a fully accessible school.

## Coming up ...

### RESIDENT PUBLIC MEETING

#### Please join us...

We appreciate that the new school may raise lots of questions, so we will be holding a consultation evening for members of the public and other interested parties to talk to us, view the school plans, and ask any questions you may have; there's no need to book, just come along.

Please refer to the map adjacent for directions

**Time:**  
21st March between 16:00 – 19:00

**Venue:**  
ATC Centre,  
Daws Hill,  
High Wycombe,  
HP11 1PZ

CCS Registered Site - number to be issued once on-site  
Any issues? call 0800 7831423 or email enquiries@ccscheme.org.uk

As a Partner member of the Considerate Constructors Scheme (CCS) we are subject to assessment visits during the construction period to ensure that we are demonstrating our commitment to the project in relation to appearance, community engagement, the environment, safety and our workforce.

Our fundamental goal of the project is to ensure that all our neighbours, parents and of course all school pupils are 100% safe during the project. If you see anything of concern please feel free to contact a member of the site team.

Everyone has the right to be

## Our Vision

At Abbey View Primary Academy (AVPA) we are committed to delivering inspirational learning opportunities that are fun, purposeful and challenging as every child has the potential to achieve and excel. Our pupils will take ownership of their learning, become highly aspirational and able to make positive contributions to life in modern Britain.

This means that AVPA will:

- Provide an outstanding primary education
- Deliver the highest standards of attainment and outcomes
- Be a member of the **Inspiring Futures Partnership Trust**, drawing on the expertise and capacity of the Trust to deliver outstanding provision
- Be a key feature/focal point of the new local community helping that community to thrive
- Meet the individual needs of children and their families
- Recognise the need for diversity by ensuring the individuality of the academy within the Trust
- Provide an environment where everybody matters, feels valued and can succeed.

## Learning at AVPA

The curriculum at AVPA will be broad, balanced and creative, providing the best possible education for local children. It will take up academy freedoms where appropriate, in order to tailor the curriculum to the needs of the pupils. In addition to following the national curriculum we will also focus upon:

### Characteristics of Excellent Learning

This will focus upon developing personal resilience, resourcefulness, risk-taking, relationships and reflectiveness. These key themes will run through the AVPA curriculum to create life-long learners equipped with the skills to make a positive contribution to High Wycombe and beyond.

### Forest School

AVPA will have a member of staff trained to deliver Forest Schools, promoting respect for nature and the environment and using the outdoors as a learning tool. This will increase children's independence and promote thinking skills.

The **Inspiring Futures Partnership Trust** will include **Abbey View Primary Academy** and **Chepping View Primary Academy (CVPA)**. Chepping View Primary Academy is an Ofsted judged **outstanding** school, a **National Support School**, lead school of **Wycombe and Marlow Teaching School Alliance** and centre for teacher training. AVPA will work in partnership with CVPA to ensure that it also provides an outstanding education. To find out more about AVPA's partner school go to: [www.cheppingviewprimaryacademy.org](http://www.cheppingviewprimaryacademy.org)
